 -- La journaliste Linda McQuaig (auteure du livre *Le Canada aux enchères*) compare les programmes sociaux canadiens tels que les soins de santé et la garde d'enfants avec leurs homologues américains et européens et conclut que les politiques de financement des programmes sociaux canadiens semblent s'approcher plus du modèle américain («charité gouvernementale») que du modèle européen fondé largement sur les soins communautaires. En se fondant sur ses recherches sur les systèmes européens, M^{me} McQuaig soutient que les dépenses sociales ne mettent pas nécessairement la croissance économique en danger.

 -- Journalist McQuaig (author of *The Quick and the Dead*) compares Canadian social programs such as day care and health care with U.S. and European counterparts and concludes that Canadian social spending policies appear to emulate the "government handout" approach of the U.S. rather than the European model of broad-based community care. Based on her European research, McQuaig argues that social welfare spending need not endanger economic growth.
